Permit-Specific Terms and Conditions

5.13 Any Virtual Permit issued pursuant to this Agreement:

- (a) will be activated for use 24 hours after the Application has been processed by the WPA. The Applicant must ensure at all times that the licence plate associated with the Virtual Permit is displayed on the Vehicle. Failure to do so will result in the Vehicle being subject to penalty under the By-Law, including but not limited to tagging and/or towing of the Vehicle.
- (b) is valid for 2 hours of parking at City of Winnipeg on-street meters and may be used for a maximum of 2 hours total on any given block face in a metered location per 24 hour period, based on the approved low demand or high demand zone permit type. A high demand permit is also valid for 2 hours of parking in a low demand area, but a low demand permit is only valid in low demand. The permit does not authorize parking in certain areas where parking generally is prohibited, including but not limited to areas designated by posted signage, including temporary signage, as "Loading", "No Stopping", and "No Parking" zones; parking in contravention of the By-Law; and parking in contravention of the Winter Parking Ban By-law No. 76/2011.

In the event that a Transponder that has not been paid for is used to gain entry into a parking facility, the Applicant may be charged the daily parking rate for the parking facility, calculated by a Transponder activity history report.

5.15 Any Dash Card issued pursuant to this Agreement must be displayed on the dashboard of the Vehicle as proof of purchase. The Applicant shall pay a "Lost Permit Fee" as set by the WPA if the Dash Card is lost.
